Prawns

Prawns are vegetarian crustaceans. They are similar in appearance to shrimp, but can be distinguished by the gill structure which is branching in prawns.

High in protein and low in fat prawns are an ideal food for health conscious people, and can be used as a replacement for any chicken dish.

Prawns come in all various shapes/sizes and flavours.

Service Foods stocks a diverse range of these products catering to any function or menu.

Black Tiger Prawns – are whole prawns with head and tail.

Prawn Skewers – are prawn cutlets which are either marinated or left plain and then skewered in sequence.

Prawn Cutlets – are prawns without head and tail.

Marinated Butterfly/Crumbed Butterfly and crumbed prawn cutlets are value added products. These are great for catering functions and are available in retail and foodservice pack sizes.

For bulk or indent pricing on prawns or any seafood product, please feel free to contact our office.
