- 25kg
- 1kg

Parboiled:

- 10kg
- 1kg

Short Grain Brown:

- 25kg
- 1kg

Wild Rice:

- 1kg
- 20kg

Rice

The seeds of the rice plant are first milled using a rice huller to remove the chaff (the outer husks of the grain). At this point in the process, the product is called brown rice. The milling may be continued, removing the 'bran' (i.e. the rest of the husk and the germ), thereby creating white rice.

Rice is a staple food for a large part of the world's human population, especially in tropical Latin America, and East, South and Southeast Asia, making it the second-most consumed cereal grain.

Rice cultivation is well-suited to countries and regions with low labor costs and high rainfall, as it is very labor-intensive to cultivate and requires plenty of water for cultivation

Service Foods imports its range of rice from the following countries:

India – Basmati Rice

Pakistan – Basmati Rice

Thailand – Jasmine Rice

- Long Grain
- Parboiled Rice
- Glutinous White Rice

USA - Short Grain White

- Short Grain Brown
- Wild Black Rice

Italy - Arborio Rice

We currently stock bulk and retail size packing which are available in all good supermarkets. Good amounts of stock are kept on hand but for indent or bulk pricing please contact our office.
