

## Variety we stock

- Frozen IQF

Strawberries (M13 size)

## Pack Sizes Available:

1kg  
10kg (10/1kg inner)

*Bulk pack sizes vary-please confirm when ordering*

Bulk Special Pricing is available – please inquire with our office.

## **FROZEN STRAWBERRIES**

Strawberry varieties vary remarkably in size, color, flavor, shape, degree of fertility, season of ripening, liability to disease and constitution of plant.

The typical cultivated strawberry comes from the Americas, and is a hybrid of the North America *F. virginiana* and the South American *F. chiloensis*, developed through accidental hybridization in the early 18th century. The *F. chiloensis* clones brought from Europe were exclusively female, and thus had to be planted with pollen sources to obtain fruit, resulting in hybrid seed from which *F. × ananassa* is believed to have arisen, probably around Brest, France.

Strawberries are also grown in Chile and in China.

We at **Service Foods** import our strawberries from China in an IQF (Individually quick frozen) packing. **Service Foods** import frozen strawberries in an American 13 (M13) size, ranging in diameter between 25-45mm.
